

Ready-Made Badges

There's more than one way to buy a badge. Ready-made badges save you time and money. Custom badges keep all your customers satisfied, no matter how specialized their badge needs.

Classic 3/32" Gravoply badges (satin finish)

Gravoply badges feature square corners and beveled edges. Metal fasteners come attached. All fasteners are nickel-plated brass, so they will not tarnish and discolor fabrics.

Metal for rotary engraving

The premium and value United States Air Force dress uniform badges. With overall dimensions of 3/4"x3", these badges are constructed of a .25" silver nickel-plated brass shell (premium) or silver nickel shell (value) that wraps around an attaching plastic insert, as specified by the US Air Force. The attaching hardware on the plastic insert is prong and clutch type. Each unit is sold with the adhesive-backed plastic back unattached to the shell to simplify the engraving process. Clutch hardware is included.

Premium USAF Name Tag 35604 Front

Value USAF Name Tag 66424 Front

For this specific badge, the USAF requirements dictate the engraving be done with a .030" or .040" tip cutter. (We recommend a .030" tip cutter, sold below, engraved to a depth of .008" to .010"). The text must be all in capital letters, and be 1/4" in height. The font used must be standard block or SL513 Portuguese font. As specified by the USAF, the text on the badge is to be engraved and paint-filled with a specific blue engraving enamel, purchased separately (see below).

Metal Badge Frames & Magnets

Plastic for rotary engraving

Similar to the badge frames, but with slightly larger dimensions and upgraded finishes. The gold badges are actually 18K gold-plated, and the silver badges are plated with stainless steel. Since they both have a solid steel core, magnets adhere directly to the body of the badge, with no need for a pressure-sensitive steel plate. Sold with or without pin back fasteners. Both sizes offer round corners. Plain frames do not include fasteners, and can be used with the magnetic clips sold below. Insert material must be 1/32" thickness only.
